The Best Smelling Christmas Soap

Last year I bought the best smelling Christmas soap, you know, the kind for your kitchen sink. I never buy stuff like that (the regular soap works just fine) but there was something about smelling like Christmas every time I washed my hands all holiday season long. I bought it from a local store called Southern Chic and she assured me it was a best seller every year. When I ran out in January or February I contemplated buying more but she had already sold out of the holiday "stuff". I even looked it up online only to remind myself I will just wait for the holidays to get into the "spirit" once more.

Saved By The Side Winder

Today, so many of us work from home, at our local coffee shop, and at the office. From location to location, my extra-long MacBook charger often took up valuable space in my bag, and never failed to get tangled along the way. The Side Winder by Fuse, saves me time and space while keeping my charger in great condition. Your loved one will love you with this compact gift this Christmas season.

This bag changed the way I travel!

The security lines at the airport always stressed me out. I never wanted to be the reason that there was a hold up or to be that person to set the alarm off. But I also didn't want to spend an arm and a leg on checking a bag. My carry-on was my catch all. I could fit a lot of things in my bag, but it was always a gamble on whether or not I could get my liquids and computer out of my bag easily and if I could empty my pockets fast enough. Not anymore! This backpack has all the compartments for easy organization for my small items and enough room on the inside for the larger items like my 16" laptop. My travel time has now turned to people watching and catching up on my favorite shows since my security line time is now hassle-free! Get ready for the easiest travel in 2023! - **Maura Boehret**

Stop saying You don't have enough space

Sure - maybe you'd LIKE more space. But odds are you have way more storage space in your house than you realize. Have you considered vertical space? How about wall space? My journey to organizing began back in 2019. I slowly started to purge (EDIT), group like things (CATEGORIZE) and use bins and other tools to maximize all of the space I had available (MAINTAIN). Little did I know organizing super heroes were about to come to Netflix and really change the game - INSERT CLEA AND JOANNA: Get Organized with The Home Edit. If you haven't watched - you should. They make organizing accessible to all no matter your space, your stuff, or your organizing abilities. To get started on your organizing journey I recommend starting with this multi pack! It says "laundry" but it's actually super versatile! - **Hanna Broom**
